LOCAL MERCHANTS WILL PLAY BALL

Broadway and Main Street Dealers Will Have Hot Contest Sunday Afternoon

Redwood closed a most successful season last Sunday when she defeated the Union Iron Works team by a 5 to 3 score. Out of twenty seven games the locals lost but three. All of the best teams in this vicinity were met and defeated. The success of the team was due largely to the success of Steve Turner and the pitching of "Tommy" Keating, and in token of appreciation for their good work the fans presented each with a gold watch fob. The presentation was made by judge Lampkin, who on behalf of the fans thanked the members of the team for their good work and faithfulness. It is hoped that next season will see the county league formed and with several of this year's team returning prospects for another successful season are bright.

The Boys' Club made it 20 out of 23 when they defeated the Hires' Root Beer team by a 7 to 2 score, Sunday. Fitzpatrick's big stick broke it up with a home run with the bases full; up to that time the score was 3 to 2.

Next Sunday the Alamo Club will be taken on for the third and deciding game. This is one of the few teams which can "crow" over a victory over our boys who are determined to show the visitors up. A good crowd should take this in as it is sure to be a hummer. The boys have not made expenses for two Sundays. Help them out.

Sunday afternoon, as everybody knows, the Merchants of Main street and Broadway will play. People, here's your opportunity. You can't "crab" at a merchant when he presents his bill, but get him on the ball field and he is at your mercy. The proceeds will be given to the Foresters band.

Following is the lineup:

George Kanzee, a lantern slide and projection expert, gave an exhibition at the high school last Thursday evening to demonstrate the Edison kinetoscope recently purchased for the use of the school. This machine is especially adapted for school and small audiences and shows both moving-picture films and lantern slides. Quite a list of material on educational subjects is available and more is being published. The machine was purchased on the recommendation of Trustee Heydenfeldt.

Department inspector Jennie E. Dravo will inspect Gen. Geo. S. Evans Relief Corps next Friday, 10th instant. Members are requested to be present.

NEW ILLTSTRATED BOOKLET DESCRIBES LOCAL PROPERTY

The George H. Irving Company, owners of Redwood Highlands (Dingee Park), has issued an artistic illustrated booklet descriptive of their property. The book has an excellent map of the peninsula showing the bay and transbay cities. It has pictures of many of the pretty homes in the tract and with a carefully prepared writeup is a valuable advertising medium for this city.

Since September 1st the company, through its local agent George A. Deleau, has made an energetic campaign in the sale of its property and over $30,000 worth of lots have been disposed of.

The company makes the following strong argument as to the advisability of investing in Redwood City:

What do you feel will be the future of a city on the Bay 25 miles from San Francisco, with miles of water front with over 20 feet of water at LOW tide? This is undoubtedly a big surprise to you—it was to us. Right now the largest coastwise steamers could enter Redwood City harbor, and with but little development work the large ocean-going steamers would be accommodated. Immediately back of the deep water is hundreds of acres of high solid ground. The great value of this harbor site was fully appreciated, and years ago it was quietly bought up by A. Schilling, the prominent tea and coffee merchant; John S. Stauffer, Manager of the Stauffer Chemical Co.; E. K. Wood, President of the E. K. Wood Lumber Co.; George A. Merrill, Mayor of Redwood City; Wm. J. Hodgkiss, President of Hobbs, Wall & Co., and other influential men. This vast purchase by such men is most significant. The harbor site is only two miles from the main transcontinental line of the Southern Pacific, and right now a spur track is being laid to connect the two. It is expected to be ready for manufacturing and shipping plants in a few months, and already several large companies have secured space.

The United States Government has recognized the importance of Redwood by making appropriations for its harbor development and the railroad companies have granted terminal rates at Redwood City.

ANOTHER PIONEER CITIZEN CROSSES GREAT DIVIDE

Sunday at noon Frederick Haussler, a resident of Redwood City for the past seventeen years, passed away. His death resulted from an operation which had been performed at Mrs. Huling's sanitarium during the week because of internal trouble. His condition was at first critical and the operation was a last resort to save his life.

Mr. Haussler was a native of Germany, aged 74 years. Before coming to this city he had for many years been in business in San Francisco and was in comfortable circumstances financially. He was a courteous old gentleman, and respected by a wide circle of friends. His death is regretted by all. The deceased is survived by his wife and his daughter, Mrs. Spoerl.

The funeral took place Tuesday from the family home on Stambaugh street, services being held by Rev. C. H. Stevens of the Congregational Church. The body was taken to Cypress Lawn for interment.

The surviving relatives of the deceased desire to return thanks to their many friends and neighbors for assistance and sympathy during their bereavement.

MILLIONAIRE CLAIMS NO PERSONAL ESTATE

Laren Coburn's Household Furture Estimated by Appraiser as Practically Valueless

With no jewelry, an automobile valued at $150 and only $50 worth of household furniture, Loren Coburn, the octogenarian landowner of Pescadero, has set a new record for a man worth $960,738. The return of the appraisement of Coburn's estate was made in the Superior Court Saturday by the appraisers, H. W. Schaberg and James McCormick jr., and while it shows he owns nearly a million dollars' worth of real estate his personal property is valued at only $1125. This figure would only include $50 for household furniture and $150 for an automobile were it not for a livery stable which he operates. This represents his other personal property.

Coburn came here in the early 50's, penniless, and amassed his fortune by shrewd buying and thrift, but now he finds himself declared incompetent by the courts in a legal battle which was taken to the highest court in the land and he must turn over his affairs to an administrator. He has filed an action to have his competency restored and another famous litigation is predicted.

Coburn's ranch at King's City, 9547.4 acres and improvements, is valued at $302,056.30; the Merced ranch of 1545 acres, $19,312.50; 3002 acres of timber land near Pescadero, exclusive of timber, $15,010; timber, tanbark, etc., on said land sold under contract with C. H. Wideman, $183,000; Pescadero ranch of 10,498.90 acres, exclusive of hotel site and Pigeon Point, $380,285; Pebble Beach hotel site, 25 acres and improvements, $20,000; Pigeon Point, 5 acres with improvements and equipment, $20,000; improvement on ranches, $13,950; realty in Town of Pescadero, $4000; improvements thereon, $2000; personal property, horses, cows, wagons, etc., $1125. Total value of estate $960,738.80.

Sewing Circle Elects Officers.

The Mount Carmel Sewing Circle completed its year's work last Wednesday. In recognition of the services of the ladies Mrs. Buck, the president, entertained the circle at an icecream party at the convent. Among those present were Mesdames Weller, Albert, Gilbert, Fitzpatrick, Gerwin, Cullen, Maloney, Curry, Foley, Locatelli, Casaretto, Smith and Shine. Mrs. Buck and Mrs. Gilbert were re-elected president and secretary respectively.

The gas company has a crew of men at work excavating the gas main on Washington street to find a leak that has caused a nuisance in the neighborhood for several weeks. A number of the shade trees along the street have died, it is supposed from the effects of the gas.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

SOMETHING DOING.

Following an active advertising and publicity campaign both locally and at the bay cities, the last ten days has seen a much increased movement in Redwood City properties, and some good sales have been reported. We particularly note that much of this new business is being done through the company that took over the handling of one of the choicest residence properties of Redwood City if not on the whole peninsula. Their plans indicate that this property is to be so exploited as to assure its early improvement and building of the right kind of homes, principally by those who will come here for business opportunities, and commuters. Their success means much to Redwood City, and the movement should be watched closely and given all the intelligent co-operation possible.

The Hopkins Estate has always been a grand property as a whole, but it is only in subdivision that Redwood City will derive from it its greatest benefit. Only the difficulties and financial vicissitudes it met in recent years have prevented its becoming, before this, one of the "showplaces" of the Peninsula.

The firm in whose hands it now is, come to us with the "right stamp" and their promise of a solid, steadily maintained campaign assures their bringing the property to the efficiency they anticipate. We understand its marketing will be followed in the development of some big plans for residence, harbor and factory sites, to be launched as quickly as they have the necessary publicity, now being developed, and the financial situation is more favorable. Their close association with the financial interests now holding large undeveloped properties suited to these purposes assures they can follow their plans so thoroughly and substantially as to bring them to a successful issue.

This means much to us all. Redwood City has felt so sure of her position and advantages that she has been somewhat inclined to "sit back" and let outsiders find out for themselves. This is too slow for this "busyday" world of advertising and salesmanship. We have the best climate and city on the peninsula—one with advantages and opportunities for big development not to be found elsewhere south of San Francisco. We have a good hotel to care for visitors and investors. Let's back up and co-operate with those who get them here, especially when, instead of trying to "get-rich-quick" by starting this movement in poor property they put their first work in one of which we are justly proud. Every visitor properly entertained is a "boost" for Redwood City. Every one who remains means immediate new business for our merchants and added strength and value to our property-holding interests.

While we are now developed beyond saying we can "make two blades of grass grow where one grew before," Redwood City property, both business and residence, is low in price—much lower than the same relative property in less favored localities. This condition maintains principally through inaction and lack of outside interest. It will take but little movement to cause property that is now slow at one dollar to be in active demand at two. Those who are in a position to purchase property now and follow this movement have everything to make and nothing to lose, beside giving it the greatest of backing, their support and close attention. We all can talk it, with the emphasis that shows "we believe and mean it."

There are big early improvements in transportation facilities now hatching that will bring the peninsula and the San Francisco district into much easier communication than at present. When these plans are made public the present development on the peninsula will appear as "but a scratch." If we are "on the job" we will get more than our share. This is what we want.

How? Boost!!!

Enthusiasm, like charity, while it must begin at home, will not stay there.

STATE EDITORS TO BE ENTERTAINED

After seeing the west side of the valley they will dine in San Jose, and during the afternoon will take a trolley ride to Alum Rock Park.

All who attended were very pronounced in expressing their pleasure in having spent a delightful evening. Miss Hart and E. Gilbert, Mrs. W. Nerney and D. J. Lynch showed their prowess in the game as their score card units brought them each a prize. It is hoped that the Camp will announce another whist party as a factor of their monthly social entertainments.

Prosperity amid a tangle of dissention often invites disaster, which was the case in the recent attachment served on the lessees of the Jenevein hostelry last week. The brief run by the new management was a financial success, as shown by the books. A bonanza was unearthed and it is alleged that a freezing out process was begun by the partners which led to the ruin of a good business prospect. The liquor interests of San Francisco closed in and the constable was a conspicuous figure on the premises for the past ten days, A. Jenevein paid off the indedtedness and now has control of the establishment. The well known resort will not remain closed long, as several parties are negotiating for a lease.

The sad information reached the many firiends of the Jenevein family that Mrs. Jenevein was for the second time stricken with paralysis. Last Sunday afternoon she was feeling in the best of spirits but during the brief absence of the family was again stricken and found unconscious upon their return. She was at once taken to the St. Francis hospital in San Francisco, yet in spite of the best treatment her condition remains the same. The doctors are non-commital but hope for the best.

Sadie B. Tobias died at St. Luke's hospital in San Francisco September 30, where she was taken two months ago for treatment. The deceased had been suffering for ten months with a complaint which baffled the best physicians in San Francisco and died a few days after an operation had been performed. She came to San Bruno from Chicago four years ago and made her home with her sister Mrs. T. H. Forster of Belle Air. Interment took place at Cypress Lawn last Thursday. A large concourse of friends and acquaintances were in attendance.

The funeral of Manuel Costa, a well-known pioneer resident of Halfmoon Bay, was held last Friday from the church at Halfmoon Bay. He is survived by the following sons and daughters: Mrs. Mary Azevedo, Mrs. Annie Azevedo, Mrs. Carrie Patricio, Mrs. Bell Valentine, Mrs. Gussie Patricio and Miss Marguerite Costa.

The students of the Halfmoon Bay high school have organized a band of 15 pieces. Business men of Halfmoon Bay have expressed an intention of giving the new venture their financial support as well as moral encouragement and the young men are taking hold of the movement with considerable energy.

WOODSIDE NOTES.

Mr. and Mrs. Henry Skilton celebrated the anniversary of their paper wedding at their home in Woodside last Saturday evening. The home was prettily decorated in yellow, green and white. At 12 o'clock a delicious supper was served. The evening was spent in dancing and games. Among the guests were the Misses Nora Hayes, Tessie Seaholm, Thea Nelson, Dora Groth, Eleanor Hansen, Sophie Dalve, Olga Dalve, Christine Joyce, Annette Anderson; also Mrs. S. Dalve, Messrs. Otto Nelson, Frank Smith, Herbert Kuckel, Karl Nelson, Mr. and Mrs. James D. Warren and Mr. and Mrs. Louis Rassmussen.

Mrs. M. Cavanaugh and Mrs. Joseph Greer of Palo Alto were badly frightened yesterday when the horse they were driving became alarmed near Woodside and ran away. The ladies escaped from the buggy uninjured, but the buggy was dashed against a telegraph pole and demolished.

The following letter addressed to the Times-Gazette speaks for itself:

Dear Sir:—Much damage is caused in and around Woodside and Redwood City by a lot of busybodies making damaging reports about my having to go to the city on account of not having a sufficient water supply. I have at this date over eight thousand gallons in 24 hours—much more than is sufficient. If any one will take the trouble to go to my place I think they will be satisfied the report is not true. Up to the day I left I ran six sprinklers on my lawn and had more than I wanted to water the plants and for home purposes. It is quite true water all over the county is scare, but not so bad as is reported. If people who make such malicious reports will aid the county a little by letting people know of its advantages, they would be better off.

Yours truly, C. JOSSELYN.

DETAILS OF THE FATAL ILLNESS OF WALTER NOBS

Letters From Comrades Tell of Last Hours of Bright Young Man Who Met Death in Foreign Clime

Mr. and Mrs. Frederick Nobs received a very lengthy letter dated at Maracaibo, September 16th, and written by Barnabas Bryan and William Gehrmann, two former Stanford students, giving in detail the facts of the last illness and death of Walter Nobs, who died at a hospital at that place on September 14th. Young Nobs with eight others, all Stanford men, were engaged for some time prospecting for oil near a small lake eight miles from Maracaibo. They had finished their work and left Walter Nobs in charge while the others went back to Maracaibo to prepare their report for their employers, intending to relieve Nobs in a short time or as soon as the work could be inspected by the government inspector. Walter was left in charge for the reason that his health was much better than that of his companions. However, after a few days he had an attack of malarial fever. Three days later his companions returned and summoned a doctor, who injected quinine in the young man's arm. The instrument was unclean and contained the tetanus germ. Mr. Nobs was removed to a hospital and made as comfortable as possible. The fever began to leave but signs of tetanus began to develop rapidly. The best physicians that could be secured were summoned to the bedside of the patient, nurses did what they could for the sufferer, but he soon became unconscious and on September 14th he passed away, far from home and friends, though he did not want for anything, as the companions of his college days were at his bedside and administered to his every wish and left nothing undone to save his life. The following Tuesday his remains were interred in a lonely cemetery near Maracaibo. The pallbearers were the eight Stanford students, who will remain in that vicinity for some time to come. They all pledged themselves to keep the grave of their dead friend green as long as they remained in the southern republic. The letter is quite pathetic in parts, particularly so when it tells of the great struggle the young man made for his life and his constant calling for relatives at home. His death was a sorrowful one, pathetic in the extreme. The young man's brow was smoothed tenderly by his steadfast companions as his soul passed to the great beyond.

Applied for Letters.

Wilhelmina Haussler has applied in the Superior Court for letters of administration upon the estate of Frederick Haussler, who died at Redwood City on September 28, 1913. The estate consists of real estate in Redwood City valued at $7,500, promissory note worth $9,000, and other personal property valued at $500. The entire value of the estate does not exceed the sum of $20,000. The heirs-at-law are the petitioner, wife of the deceased, and Mrs. Minnie Spoerl, a daughter.

New Actions in Superior Court.

Mary Taylor has brought suit in the superior court against her husband, Benjamin Taylor, for an interlocutory decree of divorce on statutory grounds. The parties to the action reside at Woodside.

Sarah T. Fox and others have commenced foreclosure proceedings in the superior court against A. S. Barron and others to recover the sum of $6000. The property on which the mortgage is to be foreclosed is the Barron ranch at Beresford. Plaintiffs ask for interest at the rate of 7 per cent per annum from April 1, 1913, and 10 per cent of the amount found due to be applied for counsel fees. The original amount of the mortgage was $7000.

The Halfmoon Bay Light and Power company has petitioned the superior court for an injunction against the Great Western Power company to restrain the latter from shutting off the electric current now being supplied by the plaintiff. The former company has the franchise to furnish light to Halfmoon Bay and other coast towns and also Colma. In January, 1912, both concerns entered into an agreement whereby the Great Western Power company was to furnish electric current to the plaintiff at the rate of one cent per kilowatt hour. Subsequently other temporary arrangements were made where the price was larger, but the plaintiff alleges that these temporary arrangements expired on March last. The defendant has notified that it would shut off the current from plaintiff's system on September 29 unless the temporary agreements were not adhered to. Plaintiff sets forth that a great number of people would be compelled to suffer much hardship if their current was shut off and asks that the injunction be issued and that defendant abide with the terms of the original contract.

Appraisers File Reports.

H. W. Schaberg, appraiser of the estate of P. A. Roussell, deceased, has filed his inventory and appraisement. The total value of the estate is placed at $4161. Mr. Hadley was paid a salary, but owing to the retrenchment of the company many agencies are being put on percentage.

Seed Growers Will Relire

The Braslan Seed company's lease on the Sweeney ranch of 800 acres expires on October 31. It will not be renewed, as James Connell and his brother, of San Jose, have rented the ranch and are to farm it extensively. The seed company has for the past five years had the land under cultivation for seeds of almost every variety, establishing the largest seed farm in the United States here. It was a successful enterprise, the promoters reaping large profits. The company would continue, but a change had to be made in the cultivation of the soil and new products had to be grown in order to get the best results from the land The change from seed to grain will be beneficial and if there is a favorable season the new lessees should have enormous crops. The Sweeney holding is one of the most valuable in the peninsula It was the pride of the late Myles D. Sweeney in his lifetime.

LOCAL MOTION PICTURES FOR STATE ADVERTISING

Dust laden but happy, Herbert Payne, millionaire and president of the California Moving Picture corporation, who is making a 500-mile automobile trip along El Camino Real for the purpose of securing a moving picture film to be used in advertising California throughout the United States and abroad, arrived here today.

While here Payne took pictures of the principal places of interest. These pictures will be incorporated in the three-reel film which, carrying the endorsement of the Portola festival committee and the Panama-Pacific Exposition company, will be used to attract the tourist to California.

Payne's idea is to secure pictures of the most interesting and picturesque spots in California and to depict the resources of the various cities and counties through which he will pass. This county will receive its pro rata of the wide publicity which the pictures will give to California.

It is estimated that 25,000 feet of film will be used on the trip. Hundreds of copies of the original will be made and released for display in this country and abroad.

Payne is the originator of this novel method of advertising the Golden State. He organized a million dollar corporation for the purpose of manufacturing and developing moving pictures. The company is now planning to erect a magnificent studio at Menlo Park, where Payne has large property interests.

MUSICAL ASSOCIATION TO OPEN CONCERT SEASON

The Peninsula Musical Association of Palo Alto, which includes among its membership a number of Redwood City people, will open its second season during the last week of October, and all signs indicate a season fully as successful as last year. The concerts will be held in the assembly hall of Stanford university where there is a large seating capacity.

Henry Hadley has written a personal letter from the east expressing the hope that he might have another opportunity of appearing before the association with his aggregation of instrumentalists, many of whom are among the ablist in the country. It is the desire of the executive committee that Mr. Hadley's musicians be again heard and a date for their appearance will be arranged.

The incomparable Flonzaley Quartet will be another all-star combination which will come late in the spring, and the other two concerts will be definitely announced later, they will probably be Fannie Bloomfield Zeisler, the greatest woman pianist, in December and Julie Culp, the great lieder-singer, in February or March.

Federal Game Law in Force

Guy P. Hull received a telephone message today from the game commissioner announcing that the federal goverment officials had authorized a change in the game laws recently enacted to make the date for the open season for ducks conform to the California laws, which fix the date for October 15th. The federal law provided for an earlier date, and it was in order to avoid a conflict of authority that the concession was made. Hunters will be wise to note the change and not venture to bag any ducks before October 15th. The federal goverment only regulates hunting migratory game and insectivorous birds and this is the first time in the history of the country that the goverment has taken hold of the matter of game preservation.

The bag limit for duck is 25 a day or 50 a week. Rail cannot be shot in the county until 1918.

San Mateo County has purchased a new Haynes car for use of the county surveyor while overseeing construction of the proposed county highways, when Mr. Neuman will be on the go every day from the time road building begins.

A number of residents from Redwood went to Stanford University Tuesday to witness the inauguration of John C. Branner as president of the institution. The congratulatory speech on behalf of the student body was made by Earl G. Behrens, a nephew of L. P. Behrens of this city.

About sixteen ladies called upon Mrs. Horace Gardiner Monday afternoon and assisted in celebrating Mrs. Gardiner's tenth anniversary of her marriage. The afternoon was delightfully spent and Mrs. Gardiner, was presented with a handsome cut glass bowl.

C. G. Landscheit, who for the last two years has been inspector of the local Masonic district, has received from the Grand Master of the Grand Lodge of Masons notice of his appointment as acting Grand Marshal to fill a vacancy due to absence from the state of Congressman Kettner. Mr. Landscheit will officiate as Grand Marshal at the dedication of the new Masonic Temple and during the session of the Grand Lodge, both of which take place the latter part of this month.

JURY IN BIG DAMAGE SUIT FAILS TO AGREE ON VERDICT

The trial of the twenty-five thousand dollar damage suit brought by Fred Pattison against N. J. McNamara was concluded in the superior court at four o'clock last evening and was and was given to the jury. After deliberating until 9:45 last night the jury reported to the Court that an agreement was hopeless and was discharged. It is understood that three members of the jury held absolutely for the defendant, while nine held for the award of some damages to the plaintiff. As to the amount of damages, however, there appears to have been a hopeless difference of opinion, the estimate varying from $500 to $5000.

PALO ALTO URGES DUMBARTON SERVICE

Says the Palo Alto Citizen: With movements becoming apparent in Palo Alto and Oakland which will soon assume the aspect of an agitation for better train service between Oakland and this city over the Dumbarton cut-off line, it is not unlikely that the chamber of commerce will at its next meeting take steps to bring about a mutual agreement between the boosters' organizations of the two cities for a conference with the Southern Pacific officials to inaugurate through trains between here and Oakland over the Dumbarton line, or at least arrange the schedules of the trains so that passengers going between the two places will not be delayed by long waits for train changes at Redwood City and Newark. There is a great deal of travel that would prefer that routing when going between Palo Alto and Oakland, thus avoiding the tedious transfer from the Third and Townsend street station in San Francisco to the bay. Should such a service be installed several merchants in Palo Alto profess that there would be more traffic for Oakland and Palo Alto. Oakland boosters, according to citizens here, are enthusiastic to take up the fight for better service. It is pointed out that should a better service prevail over the Dumbarton line the occasions such as the intercollegiate football games could be better facilitated by the Dumbarton routing and much more to the comfort and satisfaction of the passengers than the present peninsular routing.

As the service is now conducted, it is said, that the people find it impossible to reach Palo Alto over the Dumbarton line, because of the delays due to train changes, in less than three and a half or four hours. Such service is prohibitive to the business man.

Tourist Directors Want Data

Do you know of any beautiful trip within San Mateo County, automobile tramping or otherwise, which you have taken and which you would like others to take? If so, write to the Tourist Association in the Merchant's Exchange building, San Francisco, and and tell all about it.

The Tourist Association of the San Francisco Bay and River Counties, of which practically all the chambers of commerce and commercial organizations in the thirteen counties are members, is collecting material for a series of brief, attractive booklets on the many places of interest in the territory commonly described as Central California.

These booklets are to describe trips from the principal cities within the district and include the following: A booklet on train and trolley trips, one on automobile trips, one on what is described as "unexploited and undeveloped trips" which may be unknown even to most of our own people. All of these booklets are to be attractively illustrated. The association also is preparing material for a comprehensive guide book of the entire district.

It will require a great deal of material to make up these booklets, and a great deal of work and expense to gather this material. Much of it is already in hand, but in order to cover the entire territory in a way that will prove satisfactory to every district, the Tourist Association asks everyone knowing of a trip that would be attractive to visitors as well as our own citizens, to "write it up" and send it to the association's headquarters in the Merchant's Exchange building, San Francisco.

Such "write-ups" should be very clear as to the directions, roads and distances from some central point, a brief description of the country along the way, and of the scenic features.

All material will be thankfully received, and if the trip has not already been worked out, copy thus sent in will be put into shape for printing in the booklets.

W. H. CROCKER SETTLES WITH MR. AND MRS. PLAISTED OF SAN JOSE.

Suit for $10,000 damages against the Misses Ethel and Helen Crocker was dismissed in San Mateo County Saturday after William H. Crocker, a San Francisco banker, and father of the girls, had made a financial settlement with Mr. and Mrs. John Plaisted of San Jose. The Plaisteds claimed they were permanently injured when the Crocker automobile, driven by Miss Ethel, crashed into their buggy on the county road in September, 1912. The settlement, according to the Plaisteds' attorneys, runs well into four figures.
